

# OEM Project - HPE - Pointer - Harman

Report: P\_Auto:1.2 ASC

## Feature List available for PoC

Feature Part Number	Feature Description	Feature Category	PoC Availability	App Ready - Page	Data Available
PHCON1-1.1	Maintenance Information	Notifications	Partially implemented	App Page - Notifications	Implemented as a notification to the customer
PHCON1-1.1.1	Kilometer / Miles to next programmed maintenance	Notifications	Partially implemented	App Page - Notifications	Implemented as a notification to the customer
PHCON1-1.1.2	Months / days to next programmed maintenance	Notifications	Partially implemented	App Page - Notifications	Implemented as a notification to the customer
PHCON1-2.1	Battery level	Indicators	PoC Available	App Page - Indicators / My car	Data available
PHCON1-2.2	Odometer	Indicators	Partially implemented	App Page - Indicators / My car	Dongles not ready for CAN. Data entered manually
PHCON1-2.3	DTC	Notifications	PoC available	App Page - Indicators / Notifications	Data available
PHCON1-2.4	Airbag status	Indicators	Partially	App Page - Indicators	Ignite not

			implemented		provide Airbag status. Dongle not ready for CAN
PHCON1-2.5	Seat Belt Status	Indicators	No	App Page - Indicators	Dongles not ready for CAN
PHCON1-2.6	Radiator Coolant temperature & level	Indicators	Partially implemented	App Page - Indicators	Dongles not ready for CAN
PHCON1-2.7	Engine Oil temperature & level alarm	Indicators	Partially implemented	App Page - Indicators	Dongles not ready for CAN
PHCON1-2.8	Battery critical level	Notifications	No	App Page - Notifications	Data should be calculated - PConnect
PHCON1-2.9	Fuel Level	Indicators	Partially implemented	App Page - Indicators	Dongles not ready for CAN
PHCON1-2.10	Remote Dashboard	Dashboard	No	App Page - Dashboard	Page with all vehicle health not implemented
PHCON1-3.1	Airbag / CAS deployment alert	Notifications	No	App Page - Notifications	Dongles not ready for CAN and data not available at Ignite
PHCON1-3.2	Collision Call Center Service	Menu	Partially implemented	App Page - Menu	Airbag status not available. Dongles not ready for CAN and data not available at Ignite
PHCON1-4.1	MES - Medical Emergency Service	Menu	Partially implemented	App Page - Menu	Triggered by Airbag status. Information not available. Dongles not

					ready for CAN and data not available at Ignite
PHCON1-5.1.1	SVR - Standard	Menu	Partially implemented	App Page - Menu	CRM not running with customer data available for the Call Center agent.
PHCON1-5.1.2	SVR - Region / Risk Area	Menu	No	App Page - Menu	Not implemented. Geo fences not available.
PHCON1-5.1.3	SVR - Borders	Menu	No	App Page - Menu	Not implemented. Geo fences not available.
PHCON1-5.1.4	SVR - End of event	Menu	No	App Page - Menu	Not implemented.
PHCON1-7.1	Vehicle Location	Home, Map	PoC available	App Page - Home, Map	Data Ok
PHCON1-7.2	Vehicle finder	Map	PoC available	App Page - Map	Data Ok
PHCON1-10.1	WiFi Service activation controlled by HPE - on / off	Setup	Partially implemented	App Page - Setup	Ignite has APIs to control the WiFi - need some development towards TCU end. OBD-II already support this feature.
PHCON1-12.1	Push notification due DTC analysis	Notifications	PoC Available	App Page - Notifications	Ignite has APIs to control the

					to control the WiFi - need some development towards TCU end. OBD-II already support this feature.
PHCON1-12.1	Maintenance push notification or active call - Due date of maintenance	Notifications	PoC Available	App Page - Notifications	Maintenance page not ready.
PHCON1-19.1	Max Speed setup	Setup	Partially implemented	App Page - Setup	Setup page not ready. Data entered manually by PConnect.
PHCON1-19.2	Risk Areas entrance - Geo-fences	Setup	No	App Page - Setup	Setup page not ready.
PHCON1-19.5	POIs - setup	Setup	No	App Page - Setup	Setup page not ready. Partially implemented Some HPE POIs set by our team not available for PoC customer setup
PHCON1-19.6	Geo-fences setup	Setup	No	App Page - Setup	Setup page not ready.
